DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-15, and 25-38 drawn to a magnetic film.

Group II, claim(s) 16-22, drawn to a method for making a magnetic film.

Group III, claim(s) 23-24, drawn to a method for evaluating a magnetic film.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature shared by groups I-III is an Iron Carbide film comprising an α' phase as a principal phase and at least carbon and iron as constituent elements. Evidence of lack of unity between the 3 groups is found in Japanese Patent Application #09-347562 (Takahashi et al.), published 7/9/1999, wherein an FeC martensite film is disclosed (section 14 of the enclosed translation of Takahashi et al.). Applicants state on page 23 of the specification that the α' phase of the instant invention is a martensite phase. Thus, the special technical feature of the claimed invention are not found to define a contribution over the prior art.

3. A telephone call was made to Robert Patch on 10/31/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nikolas J. Uhler whose telephone number is 703-305-0179. The examiner can normally be reached on Mon-Fri 7:30 am - 5 pm.
